## Catalogue 2022

***WE CAN'T BE BEAT FOR WOOL & MEAT ON EVERY SHEEP***

***On Property Sale October 12<sup>th</sup> Contact David McArdle 0498 632 042***

***55 High Quality, Dual Purpose Paddock Reared Rams Available on the Day***

## Taljar Polwarths Breeding Objectives Include:

To Breed a True All-rounder Sheep that produces wool and meat @ a 50:50 Ratio. These characteristics include:

- Long staple, white, high Yielding lustrous Crimpy Wool
- Soft Handling 20-23 Micron
- 5-6kg Wool Cut in flock ewes
- Fertile
- Docility
- Doing Ability from extra muscle and Fat
- Maternal Instincts
- Producing Prime Lambs Even as a Pure Blood
- Ability to Thrive in Cold Wet Conditions

This Year's Rams are:

- The Rams are all Early July Drop which is 6 weeks younger than previous years.
- This year we have some late August drop rams in the mix, these rams are back up after our E.T and A.I program. Sired by 268 green one of our leading sires. They may be slightly smaller compared to the average but I can assure you they will still produce some thumping lambs!
- 15<sup>th</sup> MAY Machine Shorn
- August 2022 Micron Tested
- Top growth is calculated from weaning weight to the pwwt timeframe, as this is the age we aim to turnoff our wether portion of lambs; between 4- 8 months. It is based on the amount of growth in kilos.
- All lots are 5 months wool growth except lot 1 and 2.
- Lot 1 & 2 are 12 months fleece as were prepared for Adelaide Show.
- If any ram does not perform during his first joining, we will replace.
- All Stock Scan Figures are from when the animal was 8 months old
- Drenched with Startect night before the sale
- Yields were tested on 6 months wool in March.

Our Rams Sires This Year Include

**GREENS 787 Green and 268 Green:** This family would be our best true to type polwarths. The majority of our top sheep have something to do with the greens. They throw exceptional growth animals with beautiful, crimpy, bright wools with good wool cutting abilities. Our favourite family by far which go back to our ram 'Tiny Tim'

**REDS: Mount Alma Orange 3278:** In 2020 we experimented with some E.T from our Supreme Champion of Bendigo Sheep Show in 2017 and her daughters. This sire ram was sold the last polwarth Mount Alma sold and exported to Uruguay. Stunning wool with exceptional crimpiness.

**BLACKS 255 Blue:** Mount Crawford bloodline. Exceptional lock on this bloodline with good follicle density. Round as a wine barrel.

**BROWNS 236 Brown:** A really wonderful sire. Doing ability is second to none, this summer the ram lambs had a rough time and all the brown progenies were thriving. Matched with the high fat and muscling of this ram is his beautiful crimped Polwarth type wool. Background is the last of the Mount Alma Polwarth ewes bred with Tiny Tim

**Light Blue Taljar IKE:** Our cover boy, he is the top ram on the front cover. Rated as one of our best rams we have ever bred. This ram is hard to fault, high growth, barrel, length of carcass, bone. High yielding white crimped wool who cuts 13kg each year. He really does have it all. Is a real game changer ram, progeny take on their father's massive growth weight and muscling from a young age.

**Orange:** Excellent loin and carcass animals with very free-growing high yielding fleeces. They cut an excellent amount of wool; a ram with significant presence.

**112 Yellow:** A ram that is hard to fault. Pure, high muscle, huge growth and born a twin and throws plenty. Extremely stylish wool in combination of fantastic skin which means he is finer micron and excellent wool cut.

**Royal Blue:** Jared's Stud that derives from Rockthorpe semen. Compact correct rams with wonderful squareness and width across the loin. Very masculine and exceptional wool

**WHITES 366 White:** Derived from our Longwool interbreed champion of Adelaide in 2017. 366 stands exceptionally square and is a fantastic example of a mule free ram, all his progeny score exceptionally well with bare breech cover and wrinkle.

**Pink:** Bel-antha Bloodline rams. Lyall, Belantha's stud master has always been known as a top wool classer; and this shows through his bloodline. Impeccable wool on these sheep with excellent wool cutting traits.

**Taljade Blue:** A grandson to our champion longwool interbreed ram Taljar Ray at the 2019 show. Very much a muscle-bound family who grow very well.

**TALJADE White:** This line of rams has exceptional wool cut matched with a significant sized frame. Very bright white wool. These rams genetic background is some Mount Crawford mated to a ram out of a twice crowned reserve champion interbreed ewe from the 2017 show. Throw very much to type.

**Taljade Orange:** A NSW bloodline mated to some of Taljar's superior cast for age ewes. This ram has the hindquarters of a British breed whilst producing a free growing 20-micron fleece. Very well put together animals.

- Taljade rams are currently in their 3rd year of merinoselect (ASBV's). Please contact Talisa if you wish to access some of the data. Taljar is in its 1<sup>st</sup> year we are excited to continue down this path.

Our rams offered have been put through their paces with selection criteria including structural correctness, growth rates, wool cut, micron testing (twice), muscle scanned for both stockscan and for merino select data, and then finally when the animals pass all the tests, they make it to our catalogue. We run our ram lambs a little tougher over the summer and Autumn to try and identify and select the animals who still do well, grow, scan well and cut well during the hardest time. They have recovered exceptionally well on only pasture, and we are really pleased with the line up knowing that they will perform well for our clients in commercial conditions.

**LOT 1 173 yellow**

Micron	S.D	C.V	Comfort Factor	WWT (3.5 Months)	Pwwt 8 months	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
19	3.4	20.2	99.4	42	68	Full wool	33/67/5	
Body Weight <b>81kg</b>	Yield 68.6	Staple length 120mm						

12 months wool on this ram, he was prepared up for the show scene. Amazing, freegrowing fleece with wonderful character. He really produces a fleece we aim to breed at Taljar. Lovely stud ram.

**BUYER****LOT 2 317 WHITE**

Micron	S.D	C.V	Comfort Factor	WWT (3.5 Months)	pwwt	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
22.1	4.4	20.1	97	50	60.5	Full wool	36/76/5	Top 4 weaning weight
Body Weight <b>78kg</b>	Yield 65.3%	Staple length 95mm						

Another 12 month wool ram prepared for the show scene. He owns tremendous depth of hindquarters and good body barrel. He was a standout from a young age due to his high growth, muscling and fat. This combined with bold, white free-growing wool. Best of both worlds

**BUYER****LOT 3 278 LIGHT BLUE**

Micron	S.D	C.V	Comfort Factor	WWT (3.5 Months)	Pwwt (8 months)	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
21.2	4.7	24.3	97.7	48	57	5kg	26/56/5	TOP 15 FOR GROWTH Top 14 wool weight Top 8 weaning weight
Body Weight <b>81kg</b>	Yield 67.2%	Staple length 100mm						

A very white woolled ram who is big both on staple length and frame. Possesses excellent depth of body. He really has everything going for him. Was part of the pen of three rams at this years Adelaide Show.

**BUYER**

**LOT 4 305 LIGHT BLUE**

Micron	S.D	C.V	Comfort Factor	PWWT (3.5 Months)	PWWT 8 MONTHS	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
22.8	3.9	17	98.1	49.4	67	7kg	29/60/5	Top 3 eye muscle Top 1 wool weight Top 6 weaning weight
Body Weight <b>82Kg</b>	YIELD 69.4%	STAPLE LENGTH 110MM						

Another ram from the pen of 3 at the Adelaide show. He is a tremendous stud ram who is hard to fault with any trait. A ram with an incredible hindquarter. He is a very well put together animal with wool and carcass that we aim to breed.

**BUYER****LOT 5 TALJADE 132 ORANGE**

Micron	S.D	C.V	Comfort Factor	Wean Weight (3.5 months)	Pwwt 8 months	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
21.8	3.3	15.3	98.8	45	61.5	5kg	32/69/5	Top one for muscling and fat TOP 2 GROWTH Top 12 wool weight
Body Weight <b>91kg</b>	YIELD 66%	STAPLE LENGTH 90MM						

Such a powerful ram in all aspects. With growth and muscling like this he will be sure to put some thumping lambs on the ground! Combined with a great wool cut and stylish wool is certainly a winning combination. As wide as a billiard table

**BUYER****LOT 6 Taljade 107 Orange**

Micron	S.D	C.V	Comfort Factor	Wean Weight (3.5 months)	pwwt 8 months	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
21.8	3.4	15.6	99	35.5	65.5	5kg	30/63/5	Top two eye muscle TOP ONE GROWTH Top 11 wool weight
Body Weight <b>83Kg</b>	Yield 62.5	Staple length 110mm						

Such a lovely styled Polwarth ram with good presence. Beautiful crimp to his wool on a very well muscled ram, with a wonderful topline. He would be the longest bodied ram within the sale. Combined with all these attributes he is a very good wool cutter. Growth was phenomenal from weaning to post weaning. Talk about an allrounder.

**BUYER**

**LOT 7 232 LT BLUE**

Micron	S.D	C.V	Comfort Factor	Wwt 3.5 months	Pwwt 8 months	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments
21.5	4.3	20	97	51	56	6KG	31/68/5	Top 4 wool weight Top 2 weaning weight
Body Weight <b>76kg</b>	YIELD 76.1%	STAPLE LENGTH 120MM						

One of the best growth rams as well as one of the best wool cutting make this ram a powerful combination. He has a big, bold crimp to his fleece which is very high yielding and excellent staple length. With a very correct, barrelly hindquarter and loin. Very quiet temperament makes this ram very easy to handle

**BUYER****LOT 8 222 Lt Blue**

Micron	S.D	C.V	Comfort Factor	WWT (3.5 Months)	Pwwt 8 months	Wool weight	Eye muscle depth and width and fat(8 months of age)	Comments

A very well doing ram with great muscling and fine wool. He was a ram that held his condition and growth all through the tough Autumn. A ram that has wonderful growth and kept up with all the older rams the whole time, which itself is impressive as he is a late drop twin!
